## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 05/20/2010 has been entered.

### ***Status of the Claims***

2. Claims 9 and 10 have been amended the Applicant in correspondence filed on 05/20/2010. Claims 9 and 10 are currently pending. This is the first Office Action on the merits of the claim(s) following a request for continued examination.

## **RESPONSE TO ARGUMENTS**

3. Examiner acknowledges receipt of declaration under 37 C.F.R. § 1.132 by Hirotaka Haro (hereafter the Haro Declaration). The information contained therein has been considered.

4. Claim 9 was rejected under 35 U.S.C. 102(b) as being anticipated by Haro, et al. (Journal of Clinical Investigation, 2000). This rejection is moot in light of Applicant's amendment to Claim 9.

5. Claim 10 was rejected under 35 U.S.C. 103(a) as being unpatentable over Haro, et al. (above). Applicant traversed this rejection on the grounds that the prior art does not teach or

Art Unit: 1628

fairly suggest the claimed invention. Specifically, Applicant notes that the disclosure of Haro, et al., requires the presence of macrophages in treating a herniated disc or HNP (see pg 147, col 2, para 2, last sentence). The instant invention is drawn to administering a composition consisting of MMP-7 and a pharmaceutically acceptable carrier to the affected site of the herniated disc or HNP. The claimed method does not use macrophages. After careful consideration, Examiner finds Applicant's argument persuasive and the rejection of Claim 10 under 35 U.S.C. 103(a) as being unpatentable over Haro, et al., is withdrawn.

6. Applicant has overcome all standing rejections.

#### **REASONS FOR ALLOWANCE**

7. The following is an examiner's statement of reasons for allowance: The instant invention is drawn to a method of treating herniated disc or HNP consisting essentially of administration of MMP-7 or consisting of administering MMP-7 and a pharmaceutically acceptable carrier. Haro, et al., represents the closest prior art. This art teaches that macrophages are required for treating herniated disc or HNP. Based on the teachings of Haro, et al., it would not have been obvious to the art worker to administer only MMP-7 in the therapy of herniated disc or HNP.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Conclusion***

Art Unit: 1628
